PANEL

24/7 Professional Grade

Designed to run 24/7, our displays uses professional grade LCD panels, LED backlights and internal components which now support over 50,000+ hours of operations.

IPS

High Brightness IPS Panel

With IPS technology and high brightness, Pixlac displays ensure outstanding color accuracy and consistency achieving maximum colors from all viewing angles.

SOC Media Player

Our System-on-Chip (SOC) enables Android/Windows integrated system which enables your content to run from USB or online CMS platform or any other compatible third-party software.

Integrated Loudspeakers

Give your videos more life by adding sound using our improved loudspeakers or simply use your corporate background music over the top of the content.

Lockable Internal Cabin

Enables you to connect an external source such as a small PC or media player or use HDMI or VGA, all secured and locked inside the rear cabin.
